FALSE.—The alarm of fire at 10 o'clock last night proved to be a false one.

CHICAGO LITERARY LEAGUE.—The Chicago Literary League, at the regular election, on Saturday evening, chose the following gentlemen as officers: President, D. N. Manchester; Vice-President, H. Thomasson; Recording Secretary, H. S. Brindford; Corresponding Secretary, L. B. France; Treasurer, J. Harlan Wood.

LAKE ERIE STEAMBOATS.—The Cincinnati Commercial learns by private letters from Toledo that an arrangement is likely to be made between the Michigan Central and the Michigan Southern Companies, by which the magnificent steamboat lines of each road—between Toledo and Buffalo and Detroit and Buffalo, are to be withdrawn.

RECORDER'S COURT.—The April term of the Recorder's Court commenced yesterday. Special venires were issued for Grand and Petit Juries, and the Court adjourned until Wednesday. The State's Attorney sends us the following notice:

RECORDER'S COURT, APRIL TERM, 1858.

Editors Tribune—Notice is hereby given to all persons under indictment in the Recorder's Court, and out on bail, that they will be defaulted on the opening of Court on Wednesday morning, 7th inst., unless the parties appear for trial.

CARLOS HAVEN, States Attorney.

SUIT AGAINST THE CITY.—Mr. B. C. Yates, late Captain of the Police, sued the city yesterday, before Justice D'Wolf, for the balance of his salary, amounting to $25. The City Attorney denied the jurisdiction of the Justice, and it was finally agreed that judgment should be rendered against the city, provided it should turn out the jurisdiction was legal.

THE TRINITY CHURCH FAIR TO-DAY.—We trust the public will not forget the annual sale of fancy articles, of Metropolitan Hall to-day, by the ladies of Trinity Church. The sale will commence at five o'clock this afternoon, and continue during the evening. The articles are of every variety and many of them are really elegant. A sumptuous refreshment table is connected with the sale. The object sought to be attained is a worthy one and the ladies should receive a most liberal patronage.

TO THE PUBLIC.—An article was published in the Tribune of the 31 instant, which contained grave insinuations that Bonner's Livery Stable would not be granted to the "Globe Hotel," North Clinton street, by order of the Captain of Police. We are happy to state after due enquiry, that there was no authority from the Captain, nor any foundation for publishing anything derogatory to the House, nor its proprietor, Mr. Bonner, who is well worthy of the public confidence and patronage. JOHN M. KNOWLTON,
Chicago, April 6, 1858. Capt. Police.

CHICAGO MUSICAL UNION.—This society is hard at work preparing for their next grand Concert, in which the oratorio of the Creation will be produced. It is intended the concert shall take place in the course of four or five weeks, and nearly, if not all, the artistes and amateurs, resident in our city will take part in it. The Musical Union is now a permanent institution, and the public will look anxiously for the day when its next Concert shall be announced.

A CARD.—*Editors Tribune*—Some party (actuated by what motive I am unable to perceive) has taken the unwarrantable liberty of placing my name in the Chicago *Daily Times* as a candidate for the office of Justice of the Peace for the North Town of Chicago. This paragraph is to inform the public that I am not a candidate for said North Town, particularly, that I have never authorized any person to announce my name for such office at the ensuing election.

By inserting the above, you will thereby confer a favor on the undersigned. JOSEPH MASON.

RESIGNATION OF MESSRS. SOUTHWICK & R. R. OFFICIALS.—The Adrian *Watch Tower* says: "We learn that Charles Minot, resident Manager of the M. K. & N. I. R. R., residing in Chicago, and R. H. Wilmot, District Superintendent of the West Division, residing in Laporte, have resigned their offices, to take effect on the first day of April.

Mr. Williams, we understand, has received the appointment of Assistant Superintendent of the Milwaukie & Mississippi R. R.

It is reported that several other changes of officers will take place immediately after the annual election which takes place at Toledo on the 28th of April.

CHURCH OF THE ATONEMENT.—The parish meeting of the Church of the Atonement held yesterday was unusually large. The following gentlemen were elected Wardens and Vestrymen for the ensuing year:

Wardens—
Lester P. Clancy, Junior
Vestrymen—L. B. Otis, Isaac Pike, Esq., Thomas Pickering, G. A. Sackett, C. P. Lee, Thos. C. James, S. A. Ford, James Putney.

The Wardens and Vestry of this Parish have given Rev. Levi V. Norton, of Jamestown, N. Y., a call to the vacant Rectorship, which he has accepted. He is expected to visit this city this week.

RUSSELL'S PATENT HEATER.—The following very complimentary letter is one of the best recommendations of Ehlert's Patent Heater for locomotives, which can be observed:

OFFICE OF SUPERINTENDENT LAFAYETTE WORKS,
LAFAYETTE, March 24, 1858.

PETER S. RUSSELL, Esq., Chicago, Ill.—*Dear Sir*: The engine "C. Hibbard," No. 17, on the New York Central Railroad, lately past Buffalo, hauled the mail train consisting of three long cars, to Utica, 78 miles, and returned with an express train of five long cars burning 13½ cords of wood, in all, including the wood used in firing up; making 14 stops each way. Time on the Mail train 3 hours and 10 minutes. Time on the Express train 3 hours and 10 minutes. The engine stood at Utica from 3½ until 6½ o'clock P. M. About one-ninth of the wood used was white pine, the balance mostly beech and oak. Weather clear, with a light breeze from the West.

Respectfully yours,
WALTER McQUEEN.

Common Encampment.—The regular meeting of the Council was held last evening. The minutes were Duniap, Wahl and Congdon.

The following proceedings of general interest were had:

Ald. North appeared and took his seat, having taken the oath of office in the Clerk's office.

A peremptory mandamus from the Supreme Court was read, directing the Mayor, Council, Comptroller and Treasurer to pay Van H. Higgins, Esq., $6,200, due for damages assessed in favor of the said Higgins, for property belonging to him taken for the extension of Lasalle street. Referred to the Mayor, Comptroller, Treasurer and City Attorney, with power to act.

Mr. James A. Mulligan sent in his resignation as one of the Board of Education. Accepted.

Mr. James A. Ward was elected to fill the vacancy created by Mr. Mulligan's resignation.

Ald. Myers read a communication relative to the $90,000 of Internal City Bonds, signed last year, and asking the appointment of a Special Committee to investigate the matter. The communication was ordered printed.

The Mayor appointed E. C. Long School Agent; Jacob Enders, tender Chicago avenue Bridge; John Hasting, tender Wells street Bridge; C. Holm, Sealer of Weights and Measures; David S. McClain, Police Constable, and the different bridge-tenders at Police Constables. All these appointments were confirmed.

An order was passed directing the Bank of Guy Smith & Co. the place where the city funds shall be kept.

The Committee on Claims reported in favor of paying Mr. Allan Pinkerton $364 for police services rendered in catching and convicting Martin Quinlan of grave robbing. Laid over and ordered to be printed.

The Fire and Water Committee reported in favor of building a house for the Steam Fire Engine in rear of First Baptist Church. Concurred in.

The names of three hundred persons, to serve as jurors in the Recorder's Court, were reported by the special committee appointed for that purpose. The reports were concurred in.

An order was passed granting the property owners on State street authority to pave that street at their own cost and under the direction of the Superintendent of Public Works.

An order was passed for the construction of sidewalks on each side of West Madison street, six feet wide, from the Southwestern plank road to the city limits.

Ald. Long moved to proceed to the selection of a Corporation newspaper. The ballot resulted:

Democrat	000-0000
Journal	0000-0000
Total vote	16

On motion of Ald. Bross the prices to be paid the Corporation newspaper were fixed at the same rates as last year.

On motion of Ald. Long, the ordinance fixing salaries of city officers was taken up and amended by increasing the Harbor Master's salary from $1,200 to $1,500 per annum and abolishing the salary of Assistant Harbor Master, and passed. The ordinance has already been published in the Tribune.

The Mayor appointed Edward Silver to the office of Fish Inspector. Confirmed.

The Council adjourned at 10½ o'clock.

A STEAM FIRE DISPARAGER.—The Louisville Journal thus speaks of the establishment of a steam Fire Department in that city:

This steam fire organization, which is now in a fair way to be shortly in full operation, and is now to some extent, effectual, will partly disarm with the Hand-engine Companies, and the Hose Companies of which are too valuable in our citizens to need demonstration. The introduction of steam fire engines will correct many of the evils that are inseparably connected with the fire department as it has heretofore existed. It will exonerate a large number of our citizens from the labor of working and maintaining the hand engines, a labor which was onerous in the extreme, and never adequately compensated, but which was indispensary in the absence of the only mode of extinguishing fires. It will have the further good effect of breaking up the rendezvous for idle boys who congregate about engine houses to concoct mischief and "run with the machine." But it has the still greater advantage of diminishing, proportionably, the inevitable amount of damage from fires. The one steam engine we have now, drawn by two horses and manned by four or five men, will do as much per hour as twenty or thirty of the old kind with thirty or forty men, and can be at the fire and in active operation in half the time. Two more steam engines are under contract and will shortly be delivered to the city, and, before the end of the year, the City Council expects to have in all four steam engines. These in connection with the old ones to be retained in the city from this system. The amount of the cost of these engines will unquestionably be saved in one year by the decrease of the rate of property by fire. Besides this, the city will have the use of the hose and engine houses to sell to aid in paying for the steam engines, and the proceeds of them sales will nearly pay the whole cost incurred on this account.

PUBLIC LECTURE.—A young lady named Patrick H. DeLanty was arrested Sunday night charged with stealing a bonnet and cape from the hall of a boarding house kept by Ferdinand Wellinger at No. 270 Wells street. He gave bail in the sum of $500 to answer.

MARY SCOTT, formerly a domestic in the house of Ald. Harris, was arrested yesterday morning, charged with stealing towels, window curtains, silver spoons, and other household articles, from the family of Mr. Harris. She was committed for trial in default of $300 bail.

One of those vile dens of the West Side known as "nigger dives" were broken up Saturday, and four colored persons were arrested who gave their names as follows: Joshua Elder, Alexander Daniels, Chas. Condle, and Miss Brain. Witnesses proved that white and black persons were constantly in the habit of quarreling, drinking, and fighting in the house. The women and Condle were fined $100 each, Daniels $10, and Elder discharged.

For being drunk and disorderly, James Cunningham, Charles Cunningham, Patrick O'Day, Jerry Farrell and William Thompson were fined $5 each; John Shepard, James Burke, John Clancy and James Gallagher $10 each; James Cole and Mrs. Devereaux $15 each; William Knowles and Charley F. Walfield $25 each; Alex Golden $10 and 40 days; Thomas Fay and Edward Hartwell $10 and 30 days; Michael Welch and John O'Brien $10 and 90 days; Mrs. Dillon $20 and 60 days; Barney Kenan $25 and 60 days.

A CARD.—*Editors Tribune*—On the 31st day of March, 1858, I was removed from my position of clerk in the Chicago post office by the present postmaster, Isaac Cook. Mr. Cook informed me, in the presence of Mr. Armstrong, of the registry department, that he removed me for being present at and participating in the disturbance which occurred at the meeting of the Buchanan Democracy held at North Market Hall on the 26th of March last.

This was the sole cause assigned by Mr. Cook for my removal.

Now, the facts are these. At seven o'clock I went to the post-office and remained there in prosecution of my duties, up to about half-past ten o'clock, P. M. After that during the evening of the meeting referred to, was I present in the North Market Hall, nor had I any connection with that meeting or the disturbance which there occured in any manner, shape or form.

These facts are known to many and can be fully proved.

What then, was the motive for my removal? Clearly not that I was present at the Buchanan meeting and participated in the disturbance, for Mr. Cook must have known, if he made inquiry, which he was bound to in justice to me, that such position was entirely false and without any foundation.

It is well known, however, that I for one and have always been opposed to the policy of the President upon the subject of Kansas. I am and always have been with Lecompton in my views.

Is it not fair to assume that for this cause alone I was deprived of my place?

If removal from office is the fair and legitimate consequence of honesty in politics, I do not complain, but at least I have a right to demand that I should not be made the victim of dishonest and hypocritical, falsified that the course of our Senator, S. A. Douglas, is right whether in office or out of office, I cannot do otherwise than endorse him fully.

MADAME ISABELLA CLARK'S CONCERT.—We doubt if any singer who has visited our city has excited a general curiosity to hear her as has Madame Isaldora Clark. The very high terms in which the best and most reliable critics in the great eastern and southern cities have written of her performances, and the great reputation she acquired in Europe, have led us to anticipate much in the musical public generally, on this her first visit. Her first concert is announced for to-morrow (Wednesday) evening, at Metropolitan Hall, and those who wish to secure seats at Higgins' Music Store, No. 48 Lake street, without extra charge. Madame Clark will be assisted by Signor Centemeri, one of the most celebrated baritones of the day; by Mr. Tausi, a resident of this city and a much admired tenor, and, in addition, Mr. Unger's fine orchestra will play two or three overtures and the accompaniments. This concert promises more than any announced for a long time and will doubtless attract, as it should, a crowded house.

FIRE IN RANDOLPH STREET.—Yesterday morning about 3 o'clock, a fire occurred in the block of wooden buildings on West Randolph street, near the Market, which destroyed a number of tenements. The fire broke out in the uncoccupied basement of one of the buildings, formerly used as a saloon, and destroyed a block owned by Mr. J. Martin, and another owned by Stephani & Brothers. Four of the tenements were unoccupied. The others were occupied by H. Bang, grocer; loss $1,000, insured $500. G. & J. Mellous, dwelling house, loss $1,400. A. H. Powers, four store; loss $900, insured $400. Dr. Charles Kelsey, office, loss not known. There is no doubt but that the fire was the work of an incendiary.

FATAL ACCIDENT AT KANKAKEE.—We learn that Dr. Russell, of Kankakee, on Saturday, in attempting to get off the train from the South at Kankakee, missed his footing, fell under the wheels and was instantly killed.

FREE LECTURE before the Chicago Mechanics' Institute this evening, at their rooms, corner of Washington and Clark streets, by P. Bowman, Esq., Subject—"The Philosophy of Motion." Those who need the lectures one week will not fail to be there to-night.

The members should remember this is the regular monthly meeting.

OLD FOLKS' CONCERT.—The last rehearsal previous to the Concert will take place this (Tuesday) evening, in the Hall of Bell's Commercial College, Portland Block, corner of Washington and Dearborn streets. It is necessary that all who intend to take part in the public performance next Thursday evening should be in attendance this evening.

Of the Corn received, 14,347 bu were by canal.

Shipments by Lake the same day were 500 bbls Flour to Oswego; 15,000 bu Wheat to do, and 18,000 bu Wheat to Buffalo.

CITY, SATURDAY EVENING, APRIL 3, 1858.

The following were entered Customs for Warehouse during the week ending April 3d, 1858:

Flour, bbls	1,191	Grass Seed, lbs	11,700
Wheat, bu	17,417	Hides, No	37,000
Corn, bus	4,200	Provisions, lbs	74,000
Oats, bus	2,000	Lumber, M	1,000
Barley	2,000	Shingles, M	500
Potatoes, bus	1,000	Hogs, No	500

FLOUR AND GRAIN IN STORE.

The following was the amount of Flour and Grain in store April 3d, as reported by the 23 commission:

Wheat, bushels	1,237,277	Flour, bbls	15,000
Corn, "	29,000	Oats, "	12,000
Rye, "	1,000	Barley, "	1,000
Barley, "	22,000		

The amount of Wheat shipped by Lake last week was 277,000 bushels.

Since our last review, the opinion has generally prevailed both on the part of the Trade and Produce Guild, that the spring business would be opened with the commencement of navigation, and that the receipts would be large—large quantities of Flour and Grain are now moving from the interior east, and the Corn and other products of the country along the Canal and Illinois River are now coming forward in large quantities. It is needless to say that all preparations to handle and store the same were made, and the facilities for doing so were ample. But the unexpected has occurred, and the receipts are light, and the demand for shipment is limited.

FREIGHTS—By Lake are unsettled, and but few vessels have been chartered for past week; they are offered at 3d on Corn to Ogdensburg, and 10c Canallus, vessels were chartered yesterday to ship on Wheat to Montreal, at 12c per bu; to Kingston, 10c per bu; to Oswego, 10c on Corn; the latter are good. $3.37 per m is paid to St. Louis on dry lumber, $2 to Rock, $2.50 to Florence, and $2.25 to Fowler.

FLOUR—Is not in demand, except for local consumption, and the excess grades for Canada. It is thought that of the winter grinding will soon (by January) be all in, as the millers are holding out for higher prices, but as no one can say at this time what the market may be a month hence, they will not hold off much longer. A small sale of 200 bbls of fine Spring was made to-day at $4.25. Sale previous was from 50 bbls, Superfine Spring, $4 per bbl. The receipts were 1,191 bbls. Shipments 500 bbls.

WHEAT—A decline is noted in this grain since our report of a week ago. On Wednesday evening and Thursday, however, a better feeling was had, after receipt of the Pacific news, showing the foreign market to be on the mend. At the close, sales were only in small lots at prices ranging from 80c for Spring, to 90c for white; 5,000 bu spring sold to-day at 80c at which 70,000 bu spring were offered; 70,000 bu white at 90c, and 10,000 bu red at 85c.

CORN—Large quantities of Illinois River corn commenced arriving to-day, and it seems to be generally in good order, and the best lands of it will command 40c per bu. Other grades are not in demand. Sales were made to-day at 30c for Canallus, on account of vessel owners. A lot of new Illinois River sold at 35c. Receipts 4,200 bus. A lot of new Illinois River in store to-day, the commencement for this receipt 37 cts.

The Republican Struggle.

The extraordinary combination of parties in the West upon Mr. Crittenden's candidacy for the Senate, and the triumph of the combination at the late election in Illinois, have produced a profound sensation upon the politicians in Washington. Except the Democratic party, which has been for years the only National party we have had, there has been no party which could claim to be National, or which could command a majority of votes in any two States of the Union. The Democratic party was formed for the express purpose of preserving the Union, by preserving the equality of the States in the Government. Whenever any other party has come into power, it has been sectional, and has soon gone to pieces, because it could not command votes enough in enough States to keep it together. The Whig party was sectional, and hence its fate. The Republican party is sectional, and must inevitably go the same way. The Democratic party is the only National party we have had, and it is the only party which can save the Union from destruction.

The Democratic party was formed in 1798, in opposition to the Alien and Sedition laws, which were sectional enactments, and could not have been passed by the votes of the Democratic States. It was the party which resisted the Missouri restriction, which was sectional, and which would have destroyed the Union in 1820, if it had succeeded. It was the party which resisted the tariff of 1828, which was sectional, and which would have destroyed the Union in 1832, if it had succeeded. It was the party which resisted the Wilmot Proviso, which was sectional, and which would have destroyed the Union in 1846, if it had succeeded. It was the party which resisted the Abolition agitation, which was sectional, and which would have destroyed the Union in 1850, if it had succeeded. It was the party which resisted the Kansas-Nebraska agitation, which was sectional, and which would have destroyed the Union in 1854, if it had succeeded. It was the party which resisted the Know Nothing agitation, which was sectional, and which would have destroyed the Union in 1856, if it had succeeded. It was the party which resisted the Republican agitation, which was sectional, and which would have destroyed the Union in 1858, if it had succeeded. It was the party which resisted the Abolition agitation, which was sectional, and which would have destroyed the Union in 1860, if it had succeeded. It was the party which resisted the Republican agitation, which was sectional, and which would have destroyed the Union in 1862, if it had succeeded. It was the party which resisted the Republican agitation, which was sectional, and which would have destroyed the Union in 1864, if it had succeeded.
